Subject: Request for Public Hearing on Lahaina Wastewater Injection Well Permit

To Whom It May Concern,

I strongly feel that the Lahaina community needs another chance to testify on the Injection Well Permit. The DIRE Coalition has a set of conditions it would like added to the permit, new issues have been identified and warrant EPA's attention!  
Please grant us a fair due process and the opportunity to share our additional concerns.

Mahalo for your consideration,  
Elle Cochran
